Personally appeared before me, this 6th day of November, 1906, E. J. Paxton, General Manager of The Sun, who affirms that the above statement of the circulation of The Sun for the month of Oct., 1906, is true to the best of his knowledge and belief.

PETER PURYEAR, Notary Public.
My commission expires January 22, 1908.

Daily Thought.

"If you do not know what you believe, find out quickly, and take a stand on it."

THINGS TO REMEMBER.

It makes no difference who are nominated for governor and senator by the Democrats of Kentucky, the candidates will go before the people with a weight of accusations about their loins that will greatly retard their chances of election. If the primary election is close, as it promises to be, the weight will be the more grievous; if the general election is close, as it should be, the handicap will be too much. Whatever is the result today, we call on the people of Kentucky to remember what Beckham has said about McCreary, what McCreary has said about Beckham, what Hager has said about Hays, and what Hays has said about all of them. Beckham's strength lies in the weakness of McCreary. McCreary's strength lies in the weakness of Beckham. The governor's platform was the inefficiency of Governor McCreary and the nothingness of Senator McCreary. The senator's platform dealt with the maladministration of Governor Beckham. Whatever votes go to McCreary will be a protest against Beckham. Whatever votes go to Beckham will be a protest against McCreary. Whatever votes go to Hays will be a protest against everybody. Those who were responsible for the state primary were wise when they set it a year ahead of the election. They hope that all the bitterness and accusations will be forgotten in twelve months, and then the party lash will be cracked over the heads of the faithful, who were impudently to come out to the primary and vote. "You participated in the primary," they will be told. "You are in honor bound to support the nominee." Pernicious doctrine, fallacious reasoning—it will hardly hold water this time. Democrats did not rush to the polls this time to support a favorite candidate; they went there to rebuke the other side. It will not be party honor, but the honor of the commonwealth the voters will have at heart at the election next year. "In the interest of harmony," they will be admonished, "let us bury this wretched odious incident." Then the people of Kentucky will remember that the best way to bury a smell is to bury the cause of it. One faction will be laid low at the primary. It is up to the party to kill off the other at the next general election. Then the Democratic party may come up smiling, in the satisfaction of having buried its past.

This has been a year of peace in the world, of commercial and industrial prosperity, but of physical disaster. Wrecks on land and water have been of horrible character and unusually marked by casualties. The earthquakes that laid low San Francisco and Valparaiso, Chile, and a number of smaller places, alone would have made the year memorable. New Orleans and the Gulf coast was swept by a tidal wave that cost millions and many lives. Cuba and the West Indies have just come through a terrible tornado, while the death list in Hong Kong, China, as the result of two storms aggregated 10,000. Vesuvius again in eruption destroyed thousands of dollars worth of property, whole towns and many human beings. Nature in a wanton mood

has showed us what a tiny thing is war among the nations.

Commander Peary planted the stars and stripes nearest the pole; but when the news of his achievement was broken to his wife, she exclaimed: "Oh, when will he come home?" Which leads us to observe that Commander Peary has a greater incentive to a quick and successful trip back than to his original expedition, and a richer reward at the end of his voyage than he would have won by merely discovering the north pole. Peary's coming home and all other triumphs and failures are obscured in the possible realization of this one great, overshadowing consummation.

Citizens are invited to be guests of The Sun tonight. Special messengers will bring the McCracken county returns, while our special service will secure reports from Kentucky, New York and all over the country. The returns will be shown by stereopticon in front of The Sun office as fast as they are received.

Now, then, any horrible catastrophe that Providence sees fit to visit upon us will be accorded deserved attention. The big type have been recalled from their mission of enlightening the snufftrags.

Whatever may be the fate of the park bond issue and the fire hydrant contract, The Sun has the satisfaction of knowing it has stood for a greater Paducah.

Big Black Whiskers, of the Utes, will pay a visit to the Great Father at Washington. That name would sound ominous were the president a czar.

President Roosevelt bagged a turkey at Pine Knot Saturday. Now, if he can add Hearst's crest to his collection he will be a mighty hunter.

"My policies will be different from Dowle's," said Voliva. Naturally, since Dowle's failed. But the object will be the same.

Of course, "The Roosevelt" poked its nose closest the pole. Thought it was the "big stick."

The Sun will support the winner when he does right.

Have you done your duty?

Claim everything.

ADVANTAGES OF DRINK.

A workman in Paducah, Ky., picked up a live snake instead of his pipe. If he had been a drinker instead of a smoker, he would only have thought he picked up a live snake.—Buffalo Express.

HUGHES' PRECOCITY.

At the Age of Four He Devised and Carried Out a "Plan of Study."

Frank H. Simonds, writing of "Hughes and Jerome," in the October Everybody's, tells the following anecdote:

"The genius for work stirred early in the boy Hughes. At the age of four he went to a primary school at Oswego. For two weeks he trudged to school half an hour before time, and the reports of his progress were glowing. But his parents noted that he grew discontented. One day he knocked at the door of his father's study. Permitted to enter, he marched straight to the desk and spread out before his astonished father a sheet of paper, on which was written in a childish hand:

"Charles E. Hughes' plan of study."
"Dr. Hughes looked from the paper to the child in wonder.
"What does it mean, my boy?" he asked.

"Papa," explained the four-year-old author of a system, "I don't like it at school. Teacher goes over the same thing again and again and I get tired. I could study at home and get my lessons all done in the morning." The father looked back at the paper. There were neatly written the subjects and hours of study. He accepted the proposition, and for the next six years the boy studied at home."

ASA T. STOWELL LOST.

Big Schooner Went Down in the September Hurricane.

Mobile, Ala., Nov. 6.—It is believed here that the big three-masted schooner Asa T. Stowell has proved another victim of the terrific September hurricane. Advice reaching here says that the vessel had not yet reached Havana, for which port she sailed, and that she has not been reported. The Stowell, with nearly half a million feet of lumber, sailed from Pensacola about four days before the hurricane for Cuba, and it is believed that she was in the path of the terrible blow and went down with all on board. The owners, in Providence, R. I., have also given up hope of her.

Sand and Gravel Produced in 1905.

Washington, Nov. 6.—According to a bulletin issued by the United States geological survey, the total production of sand and gravel in 1905 was 23,174,967 short tons, valued at \$11,199,645. The total output of crude borax for the year 1905 was 46,334 short tons valued at \$1,019,154 as against 45,647 short tons valued at \$698,810 in 1904.

FRENCH POLICY OF NEW CABINET

Outlined in Declaration of Premier Clemenceau.

Church, Tax, Army, Mining and Labor Receive Attention in His Message.

VOTE OF CONFIDENCE TAKEN.

Paris, Nov. 6.—Parliament re-assembled this afternoon. The chamber of deputies was crowded when the cabinet ministers entered and all eyes were on Premier Clemenceau and War Minister Picquart, but there was no demonstration of an extraordinary nature. The premier, when he read the ministerial declaration of policy, was followed attentively and evoked several rounds of applause, especially when he announced that the law separating the church and state, as applied, would insure a full exercise of liberty of conscience. A motion approving the government's program was carried by the great majority of 395 to 96.

As the change in the cabinet was due solely to the ill health of premier Sarrien the declaration of policy announced that with the support of the country at the last elections the government only intended to pursue actively the work of reform, and that its foreign policy would remain unchanged.

The declaration of policy outlines the concrete propositions, the application of the law separating church and state, the realization of workmen's pensions, the extension of the law governing labor unions, the reform of the mining laws, the introduction of a democratic spirit in the army by the reduction of the term of service to two years, the suppression of courts-martial, relief of the wine growers and a progressive income tax, and concluded with the expression of the government's unshakable determination to transform into acts the just demands of the democracy.

LOCOMOTIVE HITS SALOON

Engine Jumps Track at Rome, N. Y., and Plunges Into a Building.

Rome, N. Y., Nov. 6.—A freight locomotive on the Central railroad jumped the track here today and plunged into a saloon. Engineer Albert Brown was caught in the wreckage and scalded to death, and brakeman Robert B. Vandervoort was crushed to death under the tender. At a frog the locomotive left the rails and ran along the ground a distance of 125 feet, when it swerved and plowed straight into the saloon, a two-story frame building. There was not one in the building at the time.

ON SHOES.

Dispatcher's Office Is Being Moved Along the Tracks.

The Illinois Central dispatching office at the "Y" will be moved to Eleventh street and Broadway. The office is mounted on shoes. An engine will pull the office down the tracks. It will require about half a day for the job. The shoes are made to overlap the tracks and it will be impossible for the house to slip when being moved. Supervisor W. C. Waggener and his force of carpenters are doing the work.

RIVER FOR RIVER MAN'S GRAVE.

Dying Request Is That Ashes of His Body Be Thrown Into Ohio.

Evansville, Ind., Nov. 6.—John McHugh, an old river man, died here today. In accordance with his dying request his remains will be cremated and the ashes thrown into the Ohio river.

Ill. With Yellow Fever.

Havana, Nov. 6.—Second Lieut. Noble J. Wiley, of the Fifth Infantry, whose discovery on board the transport Sumner yesterday with fever caused five hours' delay in the departure of the vessel, has been removed to Animas hospital. Today his illness was diagnosed as yellow fever of a mild type. Lieut. Wiley boarded the Sumner to go home on leave of absence. He arrived here recently on the transport Tarnholm and lodged in Havana. He did not visit Columbia.

\$6,000 for Umbrella.

Boston, Nov. 6.—Austin G. Metzler, a lawyer of this city, who was left \$6,000 in the will of the late Edward H. Dunn, testified in probate court here during a hearing on the contest brought by nephews and nieces that the bequest was the result of his kindness in offering Mr. Dunn the shelter of his umbrella during a shower several years ago. Mr. Dunn, who was a very wealthy Methodist, left the bulk of his estate to the church, and the probate judge allowed the will to stand.

Both Candidates Out.

Marquette, Wis., Nov. 6.—D. Trotter, Democratic candidate for county treasurer, dropped dead today at his home here. R. C. Having, the Republican candidate for the same office is critically ill.

WAY BLOOD GROWS OLD

"A man is just as old as his blood" So wrote the blood only kept young, old age would be joyous with the vigor of youth.

Happily, this thing of growing old, of suffering from the diseases of old age, of allowing the blood to grow old, is fast disappearing—thanks to the scientists who have found, who have seen and examined under their microscopes, the cause of old age and old blood. This cause is uric acid.

Uric acid is always present in the blood, gradually accumulating as we grow older and by lodging in the various organs of the body it causes disease—causes the blood to grow "old" and impure, and brings diseases of the kidneys, stomach, heart, bowels and all female disorders and weaknesses.

LIFE PLANT MAKES OLD BLOOD YOUNG
LIFE PLANT is a simple preparation made by scientists to dissolve uric acid. It drives this poison out of the blood, dissolves it out of every diseased organ of the body, and so removes the cause of old age and disease.

LIFE PLANT is a simple harmless tonic solvent of uric acid—a necessity to relieving old age of disease and giving the blood the bright purity of youth. It is a necessity during the summer because the summer's accumulation of uric acid certainly causes the deaths of winter.

Every person past middle age, every person suffering from disease, may have free medical advice and free copy of valuable booklet on the common sense of "Good Health."

Write for this book and get a bottle of **LIFE PLANT** from your druggist.

THE LIFE PLANT COMPANY,
Canton, Ohio.

Schiff Carries Union Card.

New York, Nov. 6.—Jacob H. Schiff yesterday became a member of the Journeymen Stone Mason and Setters' Union No. 84 of Greater New York. The financier took a pledge not to work for less than 80 cents an hour and never to have anything to do with a non-union job. He was initiated by Wm. J. Skinner, business agent of the union and then he got his card. The formality of making Mr. Schiff a union workman was necessary before he could lay the cornerstone of the new synagogue of the First Hungarian congregation of Ohoh Zedek.

Not Sketching Forts.

Manila, Nov. 6.—The story that a Japanese army officer had been placed under arrest here for sketching certain of the fortifications of Manila's harbor was denied today by Maj. Gen. Leonard Wood. No such arrest has been made and no Japanese have taken sketches of the fortifications. It is well known that since the American occupation Japanese have been engaged in making maps of the Philippines. There is no existing law to prohibit them, although such laws were in force under the Spanish regime.

Snake Oil Sold by a Millionaire.

Emporia, Kan., Nov. 6.—G. W. McGraw, who has been selling patent medicines on the streets of Emporia for the past few days, has received word that he is one of the three heirs to the \$12,000,000 estate left by his uncle, Thomas McGraw, a banker, who died recently in Detroit, Mich. Mr. McGraw took the news of his change in fortune philosophically. Asked what he intended to do with so much money, he replied that selling snake oil suited him pretty well, and that there were lots of places he yet intended to visit.

At Mercy of Waves.

Chicago, Nov. 6.—Louis Wright, William Thornton and a man whose name is not given, were picked up in midlake by the steamer Glenn today, after having been tossed by the high seas in Lake Michigan 62 hours. They were in a disabled gasoline boat.

YOU DON'T HAVE TO WAIT!
Every dose makes you feel better. Lax-Po keeps your whole insides right. Sold on the money-back plan everywhere. Price 60 cents.

The Rigors of Cold Weather.

Probably at no time of the year does the physical condition of the body demand more attention than just at this season, the beginning of cold weather.

Let the system be run down, or the blood impoverished to any extent and the cold weather goes hard with you.

Naturally the thing to do is to get the circulation in good order, and the whole system toned up to stand the rigors of winter.

Some physicians prescribe the daily cold bath, others seek recourse in blood tonics and other stimulants, but, probably the most rational treatment of all is the Osteopathic, as Osteopathy more quickly, and more effectively rights the blood flow and restores normal conditions than any other known treatment.

Osteopathy is only a natural treatment, a method of bloodless surgical manipulations to remove any obstructions interfering with the proper transference of nerve force, or natural blood flow, or the other fluids, to the organ or part involved.

I should like to have you call and let me tell of some Paducah people whom you know well that Osteopathy has done much for, and also to tell you what it will do in your particular case.

My office hours are from 9 to 12 and 2 to 3, 516 Broadway, Phone 1407.

DR. G. B. FROAGE.

YOUNG MAN KILLED.

By City Marshal, Who Was Trying to Arrest Him.

Stuttgart, Ark., Nov. 6.—A young man giving his name as Ed Kelley was shot and instantly killed last night by City Marshal Harper, who was endeavoring to arrest him. Kelley was about 30 years of age, and had been engaged here for the past three months working on a rice farm. He was drunk at the time and had been causing considerable disturbance prior to the attempted arrest. Coroner, Maple, immediately summoned a jury, which found that deceased came to his death at the hands of Marshal Harper while resisting arrest. The whereabouts of the dead man's relatives are unknown, and it is thought that he came here from the vicinity of Pappal Bluff, Mo. The body will be buried tomorrow in the Stuttgart cemetery.

HUNT IS ACQUITTED.

He Successfully Meets Charges Made by Bank Officials.

City of Mexico, Nov. 6.—J. E. Starr Hunt, for whom a warrant was issued here on October 25, last, charging him with fraud in connection with the settlement of the affairs of the International Bank and Trust company, which failed in 1903, was today acquitted of any complicity in the matter. Mr. Hunt, whose whereabouts were unknown until this morning. The charges were brought by the liquidating committee of the defunct bank.

INCORRIGIBLE GIRL.

Committed to Reform School by Judge Lightfoot.

Agnes Hollman, 17 years old, was sentenced to three years in the reform school yesterday afternoon in County Judge R. T. Lightfoot's court. Her mother, Mattie Hollman, resides on Campbell street and stated she could not control the girl. The girl is alleged to have been keeping bad company and refusing to do any work about home. She will be taken to the reform school this week by Patrolman Courtney Long.

Fisheries Question Aired.

London, Nov. 6.—Premier Campbell-Bannerman arguing a question in the house of commons today as to whether the government was aware of the feeling aroused in Newfoundland by the modus-vivendi between Great Britain and the United States on the fisheries question, said that the governor of the colony kept the government here fully informed regarding public operations in Newfoundland. His majesty's government was aware that Newfoundland had decided to enforce the bait act, but he must decline to say whether any or what steps would be taken by the home government in consequence of the action on the part of the Colonial authorities.

Utes Are Quieted.

Washington, Nov. 6.—A telegram was received by the military secretary from Maj. Greeley at St. Louis transmitting a report from Col. Rodgers and Gen. Wint upon the successful conference held with the Ute Indians near Arvada, Wyo., last Saturday. Gen. Greeley fully approves, as does Gen. Wint, of the agreement made with the Indians by Col. Rodgers, saying: "This effectively removes dangerous bands, which can be so handled as to prevent them again in invading a settled country in large numbers."

We Sell This 5c Cigar 7 for 25c

We want you to come in and prove to your own satisfaction what an extraordinary value this is.

"ADAD"

In size, quality, workmanship, blend—in every way—you'll recognize the ADAD as a first-class 5c straight cigar. It is, in everything but price.

We have affiliated with 2,000 other Drug Stores in our cigar buying. Our organization buys in million lots where the ordinary cigar store buys by the thousand. That's how "National" Cigar Stands sell 7 instead of 5 of this quality of cigar for a quarter.

The best cigars are now sold in the 2,000 Drug Stores having this National Cigar Stand Emblem in the window.

7 for 25c

W. B. McPHERSON, 335 Broadway.
F. E. DUNN, Seventh and Clay Streets.
J. D. BACON, Seventh and Jackson Streets.
J. C. GILBERT, 1646 Meyers Street.
PETTIT'S RED CROSS PHARMACY, 12th and Trimble Sts.
JAMES P. SLEETH, 904 Broadway.
